

Ultra High CRI A19 LED Bulb for Home & Residential

Waveform Lighting's ultra high CRI technology is now available for your home in a standard E26 A19 form factor. Our bulb is the industry's first true replacement for a 60W incandescent by achieving 800+ lumens and 95+ CRI in a true A19 bulb shape.

Our bulbs feature 95 CRI and R9 > 90 and are available in both 2700K (incandescent) and 3000K (halogen). The brightness of these bulbs matches that of a 60W incandescent, using just 10W, which equates to nearly 85% energy savings **without** compromising on color quality.

Whether you're looking for a true replacement for an incandescent bulb or need color accuracy for your latest hobby, ultra high CRI LED bulbs will be sure to bring out the true colors in your home.
